Profile

A passionate and skilled developer with a solid foundation in Flutter, I possess proficiency in several programming languages and a strong familiarity with major AI and Data Science frameworks. My technical acumen is complemented by robust leadership, teamwork, and communication abilities, honed through active involvement in the Student Union. My career experiences include a lot of roles, each contributing to a well-rounded professional skill set. Driven by a commitment to continuous learning, I am constantly expanding my expertise in new technologies and methodologies, with a focus on leveraging technology to create innovative solutions.
